Actionable Intelligence

With the successful launch of the v15 framework last month, FDM4 has now started the second phase of detailed Analytics and Dashboard report availability.

v15 Forecasting - Update

FDM4 has enhanced the Forecasting module with advanced graphical presentations and informational data grids to drive efficiencies into your forecasting and procurement office.

Improved Landing Page

FDM4 recently enhanced the Employee Landing page to provide a user-centric, configurable presentation layer. See what you need and where you need it with easy finger-tip access to improve the effectiveness of your day-to-day utilization of the FDM4 Enterprise Solution Suite. **Schedule your Demo!**

Employee Spotlight

Kevin Wilton, Software Support Specialist & **Jacob Reynolds**, Development Lead

This month's Employee Spotlight is on Kevin and Jacob for exemplifying our FDM4 core values.

"I was involved with a 100% physical inventory for Comfort Colors in New Bedford this past week. I was not aware of the function to upload our inventory counts within FDM4. I think Kevin Wilton only heard about what we were doing on Friday afternoon (July 8th) and I had four warehouses within the New Bedford facility that had to be uploaded. We all enjoy our Friday's and weekends – I want to take this moment to let you know that Kevin stuck with me all the way through this process into Saturday morning! His commitment to Gildan's success on this important inventory should be commended! I just want to say THANK YOU, FDM4!!!!" - **BILL GRIFFIN, Director of Distribution - GILDAN**

A special thank you to Jacob Reynolds who played a part in assisting Kevin to get the job done for Gildan.

Press Room
